

TG Ultra

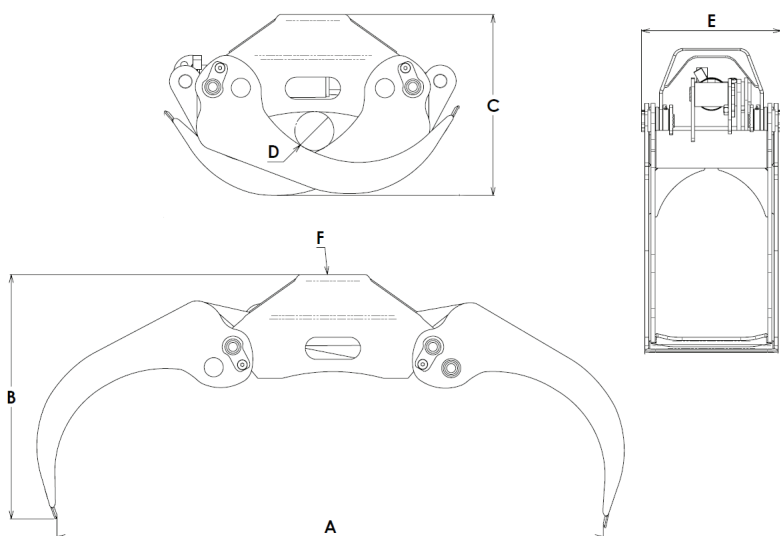

INTERMERCATO TG Ultra

Log grapple for timber cranes.

New steel quality combines low weight with high performance.

Intermercato raises the bar and introduces **TG Ultra** – a log grapple for timber cranes in its own league. By using the very latest material in SSABs development of high tensile wear resistant steel, Strenx 900 we have managed to combine low weight with unmatchable strength.

TG Ultra does not compromise – straight throughout top quality materials. Geometry and strength carefully elaborated with dynamic computer simulation.
